## Will Call Special Town Meeting On Rogers Brook

### Costs Greatly Over Estimate

A special town meeting will be held this month because the Rogers brook drainage system promises to cost far more than the amount voted by town meeting last April.

The board of public works officially voted to ask the selectmen to call the meeting "as soon after Sept. 15 as possible". They wish to find out if the voters are willing to spend enough money to complete the work.

#### Bids Opened

Bids were opened on the Rogers brook drainage Tuesday night. Lowest bidder was the L. C. Cyr company of Lawrence with \$248,888.80. Two other bids were well over the \$400,000 mark.

The bid price does not reflect a true cost, however, because it does not include engineer's fees nor any amount for contingencies.

Bids will be called for on the Shawsheen Heights drainage system.

Taking a break during the Red Cross drive Monday night are left to right, Andover Police Officer Jacob Jacobson, Auxiliary Policeman Thomas Eldred, John Lucey, Paul Cronin, Mrs. Walter Billings and Mrs. George Bushway. The two women helped set up the canteen for the scores of volunteers.

### Generous Folk Over-Subscribe Disaster Fund

The local Red Cross disaster fund reached \$6402.61 this week.

Thus did Andover residents answer the call for help from the badly-hurt flood areas.

Generous men, women and children gave more than 10 times the quota of \$615 established for the town by the National Red Cross.

In the Monday night drive, residents gave an estimated \$4000 to the tireless workers who called at every home where a light had been left on.

#### Over The Top

Before that, on Friday last, the drive was over the top. At that time, Miss Barbara Loomer said some \$2000 had already been given and many others were asked to wait for the house-to-house drive when they called to ask where

### Schools Open Next Wednesday On Schedule: Enrollment At Peak

School doors will open for at least 2500 youngsters next Wednesday morning.

Supt. Edward I. Erickson this week announced the reopening of school on the Wednesday after Labor day - this year falling on Sept. 7.

The peak enrollment of 2500 may well be an under-estimate,

he pointed out. But it is difficult to reach the exact enrollment figure until school has been in session and all late-comers are recorded.

#### Other Schools

The following Monday, 480 students will enter St. Augustine's school - some 15 more than last year's opening day.

Later in the month, 205 girls will begin classes at Abbot academy.

### Mrs. Partridge Will Seek Addition Only On Village School

"Andover has about reached its limit" in new school construction.

That's the opinion of Mrs. Dorothy Partridge, a school committee member and former Punchard teacher.

She hastened to add, however, that new construction may be necessary in Ballardvale if enrollment figures there indicate a crowded condition or if the building proves to be unsafe.

Her comment that the limit has nearly been reached referred to many other community problems that may cost a lot of the taxpayer's money during the next few years - such as new sewer mains, water and other improvements demanded of a growing community.

#### Seeks Addition

To that end, she will ask the school committee, at its Sept. 13 meeting, to approve the four-room addition to the Shawsheen school as voted by town meeting. The voters appropriated \$85,000 for that work.

However, the Perley F. Gilbert

### Industrial Development Activity Started By Planning Board

#### SCHOOL OPENING DATES STAND

All private schools in this town have announced their intention of opening school as scheduled.

A meeting Tuesday of the Private School association recommended keeping school closed until Sept. 19. The only school here scheduled to open earlier is Pike school. Until press time, its opening date of Sept. 14 stands.

Early football practice at Phillips academy has been cancelled. Boys due to report Sept. 11 will now enter school on Sept. 19 as scheduled.

The first step towards industrial development was taken by the planning board Monday night.

That body voted to ask the selectmen to a joint meeting Sept. 12 to discuss ideas for a special committee of townsmen which would act as an industrial development group for the community.

The group would first be given the task of securing data about the prospective industrial sites in the town, according to the discussion at the planning board.

emy and 760 boys will begin their studies at Phillips academy. Pike school will open Sept. 14 with 155 pupils.

In the public schools, everything will be in readiness for the opening day. In addition to teachers' meetings in various schools, Supt. Erickson is sche-

duling a meeting of all teachers for next Tuesday at 2 p.m. in Central auditorium.

## Enrollment By Schools

He broke down the expected enrollment, by schools:

High school, 376; junior high, 536; Central, Stowe and Jackson elementary, 915; Shawsheen, 338; West, 180 and Bradlee, 153.

Supt. Erickson has announced that a full day will be put in by the senior and junior high school students, while the elementary grades will hold only a morning session the first day.

Thus, all kindergarten classes scheduled for Wednesday afternoon will meet for the first time on Thursday, at the Central and Shawsheen schools. Morning kindergarten classes will report Wednesday at the Shawsheen, Bradlee and West schools.

During the first four weeks of school, the superintendent announced, the first grades will meet mornings only. Pupils whose parents can't transport them at noon will be under the supervision of their teachers until a school bus can take them home.

The Cafeteria at Punchard and Junior High school will open the first day of school. Others will start activities on Thursday. School buses will follow the same routes as of the close of school in June, Mr. Erickson explained. Any adjustments will be made after school has been in session for a few days.

## Andover Boys At Phillips

Phillips academy will open Sept. 19, with a capacity enrollment of 760.

Andover boys enrolled at Phillips academy include James L. D'Angelo, John F. Dolan, Louis Arthur Domingue, William J. Edwards, John C. Goldthwaite, David A. Howells, Dudley P. Johnson, James F. Keaney, Charles W. Kellogg, Frank J. Killilea Jr., Andrew M. Leaf, James G. Leaf, Russell N. Lewis.

Thomas J. Lynch, John W. Malone, Julian E. Minard, Joseph P. Pellegrino, Miles S. Pendleton Jr., Levering Reynolds III, Edward A. Rice, Scott W. Sanborn, Paul W. Smith Jr., Brian P. Sullivan, David C. Tomlinson, Robert A. Watters Jr.

John K. Butler Jr., John C. Doherty, Howard A. Emsley Jr.,

James F. Kfoury, Alfred G. Killilea, Ralph A. Kimball Jr., Richard L. Leete, John W. Matton, Jason E. Mondale, Detlef Noekel, Lea B. Pendleton, Robert R. Richmond, Thomas L. Stirling Jr., John A. Sullivan, Allan C. Weaver.

## Local Girls At Abbot

Abbot academy will welcome new girls on Sept. 20 and returning girls Sept. 21.

Day scholars enrolled at Abbot academy include Gale Barton, Barbara Bradley, Susan Bradley, Patricia Brennan, Susan Calnan, Carol Clements, Faith Critchley, Ann DiClemente, Elizabeth Edmonds, Ellen Edmonds, Marilyn Emsley.

Mary Faggiano, Susan Fournier, Joan Glidden, Alma Grew, Diana Hallowell, Elizabeth Harriman, Elizabeth Kellogg, Rachel Kimball, Sally Lawrence, Valerie Matthews, Mary O'Connor, Barbara Lee Onthank.

Rosemary Ozoonian, Joy Partridge, Jean Roundy, Claudia Sandberg, Kate Sides, Jane Simpson, Deborah Smith, Laurie Smith, Mary Stiegler, Nancy Swift, Gail

Titcomb, Anne Twombly, Susan Wholey.

## Pike To Expand

Pike school, with a registration of 155, includes children from Greater Lawrence. About half the enrollment, however, is from Andover. Expansion plans, including four new classrooms and an auditorium, will allow for a larger enrollment in the future, the school authorities predict.

## Planning Board Receives Report On Plan From Goodwin And Davis

An up-to-date report from Engineer Clinton F. Goodwin and Consultant Nord Davis has been received by the planning board.

It lists some of the work the pair have been doing in preparation of the master plan for the town.

The report follows:

"The following short review will outline to you the progress made and the type of information secured as a result of our research.

"Basic Material for Research:

"1. An enlargement of the United States Geodetic Survey map to the scale of 1" = 800' was made in order to prepare the base map of the Town of Andover at that scale.

"2. An enlargement of the U.S.G.S. map to the scale of 1" = 400' was made on transparent material so that prints could be made for study purposes.

"3. A set of Assessor's Sheets were prepared in order that all the information secured can be properly placed on the maps as ready reference when a given area is to be studied.

"Basic Data From Research:

"Land use or influence map. From office and field research, a map showing the use of property was prepared. Office research included a research of residential use from the list of persons, and field research consisted of a review of all buildings and land in the field. Circles were placed on the base map at the location of each residential building location and these colored in to designate the use of the buildings, such as the one family, two family or multiple family dwellings. Other than residential use is so designated to show business and industrial uses.

"Base map brought up to date. From office and field research, the base map was corrected by the addition of subdivisions and other information including the lines of the base map preparation. This gave us a base map from which we could secure prints on which to place the necessary basic data.

"Lot sizes. A research into the present lot sizes is necessary. From the assessor's sheets, the lot sizes were secured. Lots built upon are represented by circles colored to represent lots by certain area groupings, while lots not built upon, are shown by a colored dot to designate the lot size category. This shows immediately, the lots not built upon as of the date of the map.

"Building activity since the war. All residential property built since the war years is shown by coloring in the circles with colors indicating each year from 1947 to date. The assessor's sheets have information regarding the date of development and those built since the sheets were brought up to date. The purpose of this research is to show growth trends.

"Utility maps — sewer and water. Areas presently served by sewer and water or by only water, as shown on the building activity map to show the relation between the building development and the utilities.

"Parking facility map. A map showing by field inspection, the on and off street parking facilities has been prepared. Research into available sites is being car-

ried on. A tabulation by block frontages and off-street parking areas, of the use of available space will be made, both now as well as after Labor Day when peak loads will be expected. This

map also designates the areas of business and industrial development and their relation to the parking facilities.

"The report as set forth above, is in substance, repeating the verbal report made to your board on Aug. 22, 1955 and is being sent to you so that your records may be complete to date."

## Kitchen Komment

A quick 5-minute fudge frosting for the top of an eight or nine inch square cake can be made this way: In a saucepan melt 1 tablespoon margarine in 2 tablespoons milk. Stir in 3/4 cup sifted powdered sugar, 1/4 cup cocoa, and 1/4 teaspoon salt; cook about 1 minute. Remove from heat; add 1/2 teaspoon

vanilla extract and 1/4 cup coarsely chopped nutmeats. Beat until thickened.

**Remember The Maine?**

Michael J. Sullivan, 363 No. Main st., has the distinction of being Shawsheen's only living Spanish-American War veteran.

Mr. Sullivan was born in County Kerry, Ireland on the 25th of March in 1876. Seeking adventure, as a young man of 22 will do, he came to this country alone and knowing no one. He landed in New York in the spring of 1898, just after the

**MICHAEL J. SULLIVAN**

accidental blowing up of the United States battleship Maine. Still with a spirit of adventure, the young man joined the army that year and became a member of the Coast Artillery. Tom Mix of Movie fame was the first sergeant of his company. Several years ago Mr. Sullivan met him while he was appearing in Boston and was surprised to find that Mr. Mix readily remembered him although they hadn't seen each other for more than 30 years.

Upon his release from the army, he went to work for the Manhattan railroad in New York and after a year's time, he moved to Boston where he was employed for 44 years by the Boston Elevated, which is today the M.T.A.

Mr. Sullivan, one of Shawsheen's finest and best-liked gentlemen, is now retired and lives with one of his three sons, Andrew Sullivan. He keeps very active in his retirement by taking long walks and having an avid interest in the nation's sports.

**Shawsheen Village Described**

The following is the foreword in a little booklet on Shawsheen, loaned by the Andover Historical Society and concerning the year 1923.

"Shawsheen Village is located

in the town of Andover, Massachusetts, 25 miles from Boston on the old Reading turnpike. This community owes its existence to the enterprise and public spirit of William M. Wood, president of The American Woolen company, who started the construction of homes here in 1918, to relieve the war-time housing shortage which seriously affected the employees of the corporation.

"While the development at Shawsheen Village has been rapid, beauty has never been sacrificed to speed and every detail of architecture and landscape follows a well considered plan to create a community that shall be a beautiful as well as a practical and comfortable place to live."

**Prof. Dufton At Harvard**

Professor Charles H. Dufton of Canterbury st., chairman of the department of marketing and advertising, Northeastern university, was among the 18 professors and deans from colleges of business administration in all parts of the country, chosen by the Ford Foundation and Harvard university to attend the Harvard graduate school of business administration program sponsored by the Foundation. The purpose of the 10-week program was to observe use of the case method of instruction in business subjects, for which the Harvard business school is so well known, and to consider means of adapting this method of instruction, which is based upon actual experiences of business firms to use in undergraduate colleges of business administration throughout the nation.

At the end of the program, Professor Dufton was appointed by the group to serve on a five-man committee to continue the work of the program.

Professor and Mrs. Dufton recently entertained the group of 18 visiting professors and deans at a buffet supper at their home.

**Honored At Shower**

In honor of her coming marriage to John Farren of Winthrop, Miss Doris Beaulieu, daughter of Mr. and Mrs. Philip Beaulieu of Haverhill st. was feted at a miscellaneous shower Aug. 25 at the home of her parents.

The bride-to-be opened her gifts under an elaborate pink and white bell. A buffet lunch was served by the hostess, Mrs. Philip Beaulieu, to the 30 relatives and friends attending. The couple will be married Sept. 10 in Sacred Heart church, Lawrence.

# World-Wide Tour Brings Andover, England Lass On Visit Here

"Hello. Do you know where I  
can find work for two weeks?"

That was Andover's introduction  
last Friday, to a pretty young  
miss from Andover, England.

Unfortunately, no one knew  
where two week's work was to be  
found on short notice, so Miss  
Eleanor Mary Hunt decided to re-  
turn to New York city on Saturday.

## Dream Comes True

The black-haired, vivacious  
young lady is making her dreams  
come true.

She is working her way around  
the world.

A librarian for a travelling,  
commercial library at home, she  
explained "I read travel folders  
for six years and dreamed about  
it."

## Reminder of Home

Miss Hunt arrived in Andover  
about 7:45 Thursday evening, but  
only after a dire warning from a  
Traveller's Aid representative  
in Boston that there wouldn't be  
any place to stay or any taxi or

Eleanor M. Hunt

even any place open to get a bite  
to eat.

But when Miss Hunt arrived, she  
found transportation quickly  
enough to the Andover Inn and  
then found four young men who  
took her to dinner. They, too,  
were from out of the country — two  
being Canadians and the other two  
from Scotland.

"The garden at the Inn reminds  
me so much of home", she ex-  
claimed and remarked on the simi-  
larity between Andover (Massa-  
chusetts) and the college town of  
Winchester (England), the ancient  
capital of that country.

"My home", Miss Hunt related,  
"is a busy, bustling place". She  
aid of its being a center for mar-  
ket gardeners to bring their pro-  
duce and a fairly sizeable manu-  
facturing center too.

The 22-year-old girl had a  
chance to get a look at Andover,  
despite her brief stay.

She had lunch Saturday with  
Miss Miriam Putnam, librarian of  
Memorial Hall library, who also  
took her for a ride around the  
town.

She also ate typically-American  
apple pie and ice cream with Mr.  
and Mrs. Thomas Noyes of Shaw-  
neen during a Friday evening  
visit.

## Ambitious Plans

Miss Hunt arrived in the United  
States Feb. 3, 1955 and doesn't  
plan to return home until Christ-  
mas, 1957.

In the meanwhile, her plans for  
being the country read like an  
ambitious travel folder — Texas  
a rodeo this winter; New Or-

This is Eleanor Hunt's home street in Chilbolton, Andover,  
Huntshire. Her family runs a store and the postoffice, second  
building on left. Their home, with thatched roof and chalk  
walls, is over 500 years old.

leans, Florida, a visit to Cuba,  
across country to California and  
perhaps some stops in between;  
another visit to Canada during the  
winter, for some winter sports and  
on the way home, a visit to Aus-  
tralia and New Zealand.

Since February, the courageous  
lass has worked for five months  
as a governess for a Long Island  
family and a few weeks in a curio  
shop "practically under the falls"  
at Niagara Falls. From there  
she went to Canada and saw Mon-  
treal.

"I bought a lot of clothes there  
and almost broke myself", she  
grinned, "so I thought I'd come

here and see if there was any  
work for a week or two".

"I never thought I'd actually  
get here, you know", she con-  
tinued, "It seemed so far away  
when I was planning the trip at  
home".

## Parents' Reaction

Asked about her parents' re-  
actions to a trip all alone, Miss  
Hunt smiled and explained "My  
father said a very flat no, but I  
told him 'if I were getting married  
I'd be going away for good'".

That apparently broke the paren-  
tal scowl, for permission was  
granted soon after.

## Your insurance policies should "Match Up"

To prevent "holes" or expensive overlaps in your insurance coverage, your policies should all be written by one agent (us, we hope, naturally.)

The reason is, policies can be made to supplement each other wisely and economically. Often, several policies can be combined in one at considerable saving.

And an over-all knowledge of your insurance coverage, may reveal to us that you are omitting some important protection that you should have.

Carry matched insurance—not "patched" insurance.

## Call Mr. Bresnahan

Rep. Bresnahan of Lawrence is one of three House Ways and Means committee members who this week dissented from the proposed \$125,000,000 highway bond issue.

By so doing, he appears to follow the same course which he took when the original bill came before the legislature — a negative vote. It is important, for that lone vote was enough to kill the measure, since revived by a special message from the governor.

Now, Mr. Bresnahan, although elected in a Lawrence district, has an opportunity to do a great service for the entire Greater Lawrence area.

He can vote for the bond issue.

For in that bond issue is contained money for the relocation of Route 28 — a project badly needed in this town as it is in the other communities nearby.

We believe that many persons in this community have friends in Mr. Bresnahan's district. Those Andover residents should either call their friends and have them call the representative or make the telephone calls themselves — telling the man how much the new road is needed here.

Perhaps our efforts, even though they come from outside the representative's district, may have some effect on his eventual decision.

It's worth a try.

## Planning Board Does Well

The planning board, we feel, is taking the first big step towards industrial development.

That group, in a meeting Monday night, agreed that a small group of men should be asked to become an industrial committee for the town.

To that end, the planning board asked the selectmen to meet with it Sept. 12 to discuss the formation of that committee.

Members of the planning board also agreed that they should each present names before the other members — so that a group of the best possible men may be assembled.

We are certain that this is the right step — because the town badly needs such a group and immediately.

Too, the matter of cooperation is important. For the whole business of industrial development depends on each board in the town cooperating with the others. Thus it is good that the selectmen were asked to sit in with the planning board to help develop the idea of an industrial development group.

Now that this initial step has been taken, let us be sure that each logical, progressive step is taken as fast as possible.

Let us not delay in forming the committee, beyond the time required to make sound decisions.

### MARRIAGE RETURN

The following marriage return has been filed in the office of the town clerk:

Richard Onizinne Aumais, 24 Ferguson ave., Lawrence and Mary Theresa Brennan, 12 Brook st. married Aug. 27 in St. Augustine's church by the Rev. Henry B. Smith, O.S.A.

### Prepares Forms

Town Counsel Vincent Stulgis is preparing easement forms to be signed by property owners along Rogers brook drainage route. Will allow equipment to pass over private property but will be temporary. Permanent easements involving land around pipes and culverts also being prepared. B.P.W. Member Allen Frye suggests town carefully note conditions of nearby property before construction begins to protect town against liability for damages as a result of the work.

## Down the Years with The Townsman

### 50 Years Ago — September 1905

A gang of men is busy this week painting a new store owned by J. William Dean.

Richard Hodnett, William Hardy and Cornelius Moynihan played ball with the No. Andover YMCA team last Saturday, against the Lowell Dragons. "Kell" Moynihan pitched a good game for the No. Andover team.

Among local homes being painted this summer are the residences of the late J. Warren Barnard and of Henry W. Barnard on High st.

Miss Helen White returned this week from Newport, N.H. where she has been visiting friends.

The Self-Improvement society of West Parish met recently at the home of Miss Lydia Boutwell.

Twenty friends gave a handkerchief party last Wednesday night for Miss Alice McIntyre. Hostess was Miss Anna S. Davis of Ballardvale.

David Lawson, John Jenkins and William Hackett spent last week at Salisbury Beach.

Miss Mary Foster is spending a week with Miss Edith Tyler in Pigeon Cove.

### 25 Years Ago — September 1930

The special town meeting voted down two articles and approved a third. Granted approval was a \$5000 appropriation for the rebuilding of Union st. Voted down were two articles, one for \$50,000 and another for \$5000, that were designed to relieve unemployment by creating municipal work.

The playground closes for the season today with a field day. Activities will include games and races this afternoon and more races tonight at 7. The annual ice cream supper and community carnival were held last Wednesday. The children entertained with stunts and other activities.

The board of health has announced the result of a state examination of Pomp's pond water as suitable for swimming.

Directors of the Mother's club will hold a meeting Tuesday afternoon at the home of President Mrs. Alexander A. Crockett, So. Main st.

A house on Tewksbury st. owned by the Haynes estate has been sold to Arthur F. Ryder of Andover st.

Donald Dumont and William Bliss represented Christ church at a convention for young men in Oberlin, Ohio. It was sponsored by the Brotherhood of St. Andrew in that city.

The three Morgan sisters — Virginia, Frances and Marguerite — and their mother, Mrs. Hugh M. Morgan, visited with Mrs. Charles W. Henry of Central st. recently. They have just returned from Paris and are broadcasting many live programs over the radio from New York city. They played for royalty

while on the Continent and in England.

The street lighting committee has had a new light installed on Harding st. above the railroad bridge.

Andover Grange met Tuesday and will hold a visitor's night at the next meeting, with Newbury and Bradford as guests.

### 10 Years Ago — September 1945

Kenneth L. Sherman was formally reelected superintendent of schools at a special session of the school board last Tuesday. His salary was set at \$5000. He has been on leave of absence for three years, serving in the Navy.

The servicemen's carnival ran Monday and Tuesday nights to make up for last Friday and Saturday, when rain forced postponement of the event. Chairman Walter Young said the carnival was successful despite the changes in dates.

Public bathing beaches at Pomp's and Hussey's ponds closed last Saturday for the season.

The rationing board has resumed a 40-hour week. The office will be closed Saturdays and will be open from 8:30 - 12 and 1-4 during the week.

Police are looking for a hit and run driver who struck an elderly man on North Main st. Saturday night. The man was taken to the Lawrence General hospital and was discharged after treatment.

The board of public works has issued 36 permits for boating and fishing on Haggett's pond. Another application was denied because the applicant was a non-resident. A small fee is being charged for the boat registration tags. Only the person holding a permit will be allowed to use a registered boat.

Transportation contracts in force last year will be continued this year, it was decided last Tuesday by the school board.

The Andover Mother's club meeting has been postponed for a week, to Sept. 12. Meetings are usually held the first Wednesday in each month.

The canning center in the Free church will remain open, it was announced this week. Residents can use its facilities for canning fruits and vegetables for the coming winter.

### CAMP OLYMPIA COMPLETES SEASON

The summer season was completed at Camp Olympia at Pomp's pond Aug. 26. A total of 145 youngsters attended the camp during the July-August season. The camp is directed by John Barry, physical education director in the Methuen school system.

Route 28 relocation is still a matter of conjecture this week.

Latest word from Boston is that the road will be constructed if the legislature passes a \$125,000,000 bond issue now before it.

That bond issue, reduced by \$25,000,000 from a previously-defeated measure, has been reported favorably by the House Ways and Means committee. Rep. Bresnahan of Lawrence, however, was one of three members who opposed the issue.

A hearing Tuesday in Lawrence city hall referred only to the span of the proposed bridge over the Merrimack river.

State engineers attending the hearing were unable to give any information as to its specific location in West Andover. Engineer Ralph Preble attended the hearing and asked for specific information but the engineers said the hearing was only relating to necessary permission to span the river from the Army Engineers.

Governor Christian A. Herter last week publicly declared that the new route will be constructed, with initial building to begin before 1956, if the legislature passes the current bond issue.

In the state Senate, there is some feeling that the measure may not pass. That body killed the issue once before by falling short of the necessary two-thirds majority.

The House also killed the bill by a one-vote margin. Rep. Bresnahan of Lawrence cast a negative vote at that time.

home, with the Rev. Levering Reynolds Jr., Th.D., pastor of the Free church officiating. Burial was in Hartland, Me.

### MRS. EDITH BIRD

Mrs. Edith (Johnston) Bird, 30 Alden rd., widow of Elisha Bird, died Aug. 25 at her home, following a long illness.

Born March 25, 1870, in Gloucester, she was a member of the Unitarian church of Wollaston.

Surviving are a son Johnston Bird of this town; a sister, Mrs. Anne Wilson of Pasadena, Cal.

Funeral services were held Monday from the Forsythe chapel, Forest Hills and burial was in Forest Hills cemetery.

### MANUEL FUTARDO

Manuel Futardo, 57, an employee of the Andover Inn for a considerable time, died Aug. 27.

A native of Fall River, Mr. Futardo was found slumped in a chair in his room at the Inn. Associate Medical Examiner Paul A. Oskar said death was due to natural causes.

The funeral was held Tuesday from the Lundgren funeral home, with a Mass of requiem at 9 a.m. in St. Augustine's church.

Burial was in St. Augustine's cemetery.

The bearers were William Bolia, Robert Frazer, Robert Howard, Robert Leete, Rene St. Jean, John Willette and Kenneth Ludwig.

### WILLIAM G. THOMPSON

"To look into his kindly face made the world seem a better place. The touch of his magnetic hand when pain encircled like a band of steel, seemed to melt the agony that racked the mind and body. To hear his wise counsel, given straight from the heart, seemed to lift the weight of untold misery; he was a gentle healer kind, both of the body and the mind. No one too poor, no one too old, he did not practice for the love of gold."

## OBITUARIES

### CHARLES WALTER TOWNE

Charles Walter Towne, 7 York st., died Aug. 28 at his home following a long illness. He was 73.

Mr. Towne was a native of Lawrence and had lived here for 17 years. A retired bookbinder, he had been employed by the Lawrence Binding company. He was a member of First Calvary Baptist church, Lawrence and John Hancock Lodge, A.F. and A.M., Methuen.

Mr. and Mrs. Towne observed their 50th wedding anniversary June 26, 1954.

Survivors include his wife, Mrs. Livina F. (Hill) Towne; one daughter, Miss Winona F. Towne; a son, Alvin H. Towne, both of this town; two grandchildren and several nieces and nephews.

Funeral services were held Tuesday at the Lundgren funeral home.

### Mrs. Elizabeth C. Wigglesworth

Mrs. Elizabeth C. (Finlayson) Wigglesworth, 33 Chestnut st., died at her home Aug. 24 following a short illness.

A resident here since 1943, Mrs. Wigglesworth was born in Scotland 77 years ago and had lived in Franklin, Mass. and Hartland, Me.

She is survived by her husband, Arthur Wigglesworth; four daughters, Helen, wife of Harold Wescott of Laconia, N.H.; Margaret, wife of Norman Jones of Reading; Frances, wife of Sumner Billings and Elizabeth, wife of Charles Porter, all of this town; a sister, Grace, wife of William Huard of Waterville, Me. and seven grandchildren.

Mrs. Wigglesworth was a member of the Hartland, Me. Methodist church and Lady Franklin Rebekah lodge of Franklin.

Funeral services were held Saturday at the Lundgren funeral

## Selectmen Act On Street Muddle

A bill will be filled in the 1956 legislature seeking to correct the snarled unaccepted street situation here.

The selectmen Monday night directed Town Counsel Vincent A. Stulgis to compile a list of all unaccepted streets and roads which have been the center of controversy for several weeks.

He will contact the planning board, board of public works and

town clerk to get the complete list and then the bill will be filed.

Chairman J. Everett Collins has explained that the legislature will be asked to give the selectmen permission to accept the streets and roads, even if they do not come up to modern standards

established for new streets in the town.

The streets in question have been, in most cases, in existence for years and have been treated as town streets. Municipal departments have repaired them and provided other services.

Mr. Collins has said he expects prompt action by the legislature after it convenes next January.

## SPECIAL TOWN MEETING TO CONSIDER BROOK

(Continued from Page One)

tem this week.

"I'm afraid we'll be terribly short there", commented Chairman Sidney P. White. It was explained that town meeting estimates of the cost were about \$49,000 but the present estimate is \$76,000 and that figure may be exceeded on the basis of the Rogers brook bids.

Complete figures were promised for the town meeting by Chairman White.

### Can't Complete Job

The problem over Rogers brook came when it was quickly established that only two sections of the project could be done for the money in hand — and those sections would not be of particular benefit unless others were completed too.

### Two Sections Only

The first two sections, for which money would be available, are on the west side of Main st. Section one starts on the south-westerly side of School st., north-east following the course of the brook to a point near the south-westerly side of Brook st.

Section two would continue the work from a point on the north-easterly side of Brook st. where the present, 72-inch culvert now ends, across Central and to a point on the west side of Main st.

Engineer Clinton Goodwin pointed out, as did BPW Engineer Ralph Preble, that the congestion in the system is on the easterly side of Main st.

Thus, it was explained, if the work was only completed on the west side of Main st., it would serve little purpose unless the project was to be completed.

### Begin At Beginning

However, all members of the board were agreed that it is necessary to begin on the west side and continue through to the conclusion of the project.

One of the results of working on the east side of Main st., without first taking the initial sections, would be to dump fast-moving water into the brook bed on the west side of Main st. — a step that would probably result in great damage to the brook bed and to neighbors along its path, according to Chairman White.

### In Good Faith

Mr. White several times stressed the necessity of asking the voters about the project before starting it at all.

He pointed out that the BPW, in all good faith, presented estimates to the town meeting for the complete Rogers brook, Shawsheen Heights and Hidden rd. drainage jobs.

"We must present our facts to the people. We must justify ourselves and explain the reason for the difference", he declared.

Member Francis P. Reilly said he would like to see construction begin this year — and if the town meeting is necessary, it should be called.

Member Allan Flye expressed his agreement that a special town meeting should be called, as did Member Leroy Wilson. Member Alex Henderson also agreed.

### Rising Costs

Mr. White pointed out that Engineer Warren Petersen had always been within reason in his estimates of other jobs and could not be blamed for the great gap between current bids and the original estimates on the jobs.

Members pointed out that large increases in construction costs have taken place since last winter, as one important factor in the current problem.

### Alternate Figures

Mr. Reilly, when it was decided to go to the voters with the problem this month, suggested that a set of figures be prepared showing the cost of cleaning the brook, shoring up walls and culverts — a far simpler and less complicated job than the one originally proposed. They would be used, he said, if the voters refuse to go along with the expenditure for the complete job.

"You'll only be postponing the work", warned Engineer Goodwin. He pointed out that such a job, if undertaken, would not eliminate the eventual drainage project.

### Main St. Crossing

three bidders were approaching the Main st. crossing section of the work with caution.

Low bid on that section, by the Cyr company, was \$82,127.10 while the Continental Construction company bid \$137,934 on that section alone and the Civitose-Piatelli Construction company bid \$126,276 on that section.

The Continental Construction bid \$474,602 on the complete job while the Piatelli firm bid \$447,679.

### INDUSTRY DEVELOPMENT STARTED THIS WEEK

(Continued from Page One)

Member Eugene A. Bernardin called attention to the complete absence of any information about Lowell Junction or the River rd. area — and proposed that a detailed prospectus on each site should be worked up.

#### Lawrence Uses Brochure

He explained that Mr. O'Malley of the Lawrence Development group uses a detailed brochure on industrial areas when attempting to convince a manufacturer that he should locate there. One such prospectus is available on the South Lawrence area adjacent to River rd. area, Mr. Bernardin

pointed out.

It contains all pertinent data on the area; services installed or available; type of land, construction possibilities and many more details that would be essential information for any businessman considering the location.

#### Prosperity Is Goal

Mr. Bernardin also pointed out that the Lawrence group, while selling Lawrence first, also believes in selling the Greater Lawrence area, seeking prosperity for the entire section. Detailed plans of industrial sites in Methuen and No. Andover are in his hands, Mr. Bernardin pointed out, while he has very little information on Andover sites.

"If a potential owner came to town, there is nowhere to get answers and very little to tell" asserted Member Lee Noyes.

He agreed that some immediate action should be taken to get an industrial committee started.

#### Planning Board Duty

Member Bernardin pointed out that Mr. O'Malley said the planning board could initiate action by getting a small committee appointed and then assist them in all ways.

Mrs. Virginia Hammond, referring to the necessity of rezoning land for industry, said she felt that to be one area in which such a committee and the planning board could work together with excellent results.

#### Seek Good Men

It was agreed that the members should make individual lists of names for consideration for membership on such a committee and discuss them at the next meeting Sept. 12. It was also agreed that the selectmen should be invited to meet with the planning board on

the matter so that complete co-operation will continue among the town boards.

#### To Rent Car

B.P.W. will rent 1952 DeSoto formerly belonging to fire department but turned in on the new car. Will pay \$40 monthly until request for new car for engineering department is considered by town meeting.

New jobs totalling 14,450 will be the net gain for Massachusetts upon the completion of industrial expansions reported to the department of commerce during the 12 months which ended Mar. 1, 1955. The year's reports show: 99 new industrial firms created in the commonwealth, 16 companies moved into Massachusetts from another state, 147 companies built new plants or moved into larger quarters and major additions were made to 104 existing factories. These 366 cases of industrial growth took place in no less than 117 of the state's 351 cities and

towns. Of the 27 major classifications of manufacture represented, machinery leads with some 74 firms, or about 20 percent of the total. These in turn are about equally divided between electrical and non-electrical machinery manufacturers.

### SEEKS ADDITION TO VILLAGE SCHOOL

(Continued from Page One)

associates, hired for that job and the West school addition, reported that considerable money would be required to put the Shawsheen school in shape to receive the addition and thus recommended a new school for Shawsheen.

The school committee referred the architect's report on the problem to the sub-committee on planning. No other action — either a decision to abandon the addition, to build a new school or to go ahead with the four room addition — has been taken by the board.

#### One Opinion

Mrs. Partridge took issue with that report, commenting that "It is only one architect's opinion". She said J. Radford Abbot, who drew preliminary plans for the addition and obtained the estimated cost for the board, feels it can be done. A heating engineer also has said he believes the work can be done without the major changes in the Shawsheen school heating system suggested by Gilbert associates.

#### Worse Schools Exist

Referring to the Bradlee school, which was roundly condemned by the Gilbert associates in a supplementary report to the school committee, Mrs. Partridge said:

"I wouldn't hesitate to let my own children go there".

She pointed out that there are worse schools in use and that inspections by the state and town had not resulted in condemning the building for further use.

#### Seeks Time Saver

Commenting on the many school building problems confronting the school committee, she suggested that some method should be devised to make building an easier task for committees. They then could spend more time on curriculum, she asserted.

One solution, she said, would be a series of plans for all types of school buildings to be made available through the state department of education. If that department had a number of good plans, she suggested, a local committee might be able to choose one rather than spend a great deal of time discussing plans with an architect and waiting for him to complete it before work could begin.

The planning board this week voted to hold open meetings.

The decision reversed a policy adopted shortly after the board was elected last March, when it was decided to exclude newspaper reporters from meetings.

Voting for the open meetings were Members Virginia Hammond, Lee E. Noyes and Eugene A. Bernardin. Mr. Noyes made the motion, seconded by Mrs. Hammond.

Chairman Kirk R. Batcheller and Member Robert F. MacMackin were absent.

The meeting, after the vote to open planning board sessions to the press, covered a lot of ground.

The trio, a majority of the board, voted to return an electric typewriter delivered recently to the board and also a typewriter table. A typewriter chair was retained by the board.

It was agreed that the board should seek half-time clerical help. Member Noyes was delegated to screen applicants for the job, which will include one night a week when the board meets. The members agreed that \$1.25 an hour would be adequate pay for a part-time employee. Mr. Noyes will report at the next meeting of the board, Sept. 12, on several applicants including some who applied for a recent opening in the board of public works office.

The board also voted to call for bids on a manual typewriter.
